

## **AGITATOR QUESTIONNAIRE**

1. Objective of agitator
2. Degree of agitation
3. Batch time
4. Flow rate
5. Tendency of Foaming
6. Light/ heavy particles-Density
7. Mixing ingredients-specific gravity/viscosity
8. Percentage solids
9. Specific gravity of mass
10. Viscosity of the mass
11. Tendency of sticking
12. Tendency of settling
13. Gas dispersion if any
14. Sealing method
15. Working Volume
16. Minimum working Volume
17. Material of construction
18. Existing Agitator details like current consumption, type of impeller, batch time and problem etc.
19. Reaction vessel Sketch
20. Any specific product properties
